Section 10.1: Finding Our Way

Key Question: What technologies do people use to explore and navigate Earth?

BEFORE YOU READ

Read the title of Section 10.1. Browse through this section, looking at the headings and the **Try This** activity. Look at the vocabulary words. Look at the two figures, and read their captions.

With a partner, discuss how this section is related to exploring extreme environments.

WHILE YOU READ

Write brief notes about how people find their way. Include a picture that will help you remember the information.

Early peoples

Radar

Satellites

Sonar

AFTER YOU READ

Close your textbook. Use the information in your notes to write a sentence that explains how the technology is used to explore and navigate extreme environments.

- Radar: _____

- Satellites: _____

- Sonar: _____
